

SUSANNA LINDEBORG'S MWENDO DAWA

A TASTE OF FOUR FREE MINDS

LJCD 5248

Experience **Mwendo Dawa!** Jazz - freeform - fusion - avant garde - electro acoustic music or just **Mwendo Dawa!** The group from the start led and developed by **Susanna Lindeborg** and **Ove Johansson** is not only fronting these two musicians but also consists of four very strong personalities and four utterly skillful musicians and improvisers.

To be able to completely understand and comprehend the music of Mwendo Dawa you should have to listen to the whole catalogue of the group from the late 70th until today with a very modern sound and searching for new forms and expression. All the time with the acoustic instruments in focus but with the development of electronic instruments and later on computers as a basis for musical expression. But it is not necessary to follow the whole musical trip - you can just accept the music and give yourself time to listen!

A bunch of very fine musicians have been members of Mwendo Dawa but the present setup with **Jimmi Roger Pedersen** and **David Sundby** has stayed for some years now. Until today Mwendo Dawa has always used compositions as means for improvisation, but this time the group has worked only with free improvisation - just interrupted with one or two themes. Besides acoustic piano, tenorsax and EWI, bass and drums the three laptops play a significant role as improvising instruments. Nothing is settled in beforehand or pre programmed, no over dubs are made - the music is created in the moment in studio. Listen to the very exciting Mirror 2 or just take a short taste of one of the short Minits.

Skip all genres and categories and listen to the long, thrilling and maybe also demanding trip that Mwendo Dawa invites you to!
