

LJ Records celebrates 20 years with some new CD productions in autumn 2010

SUSANNA LINDEBORG

Excursions presents the third soloCD of Susanna Lindeborg in sparkling personal piano improvisations. A couple of tracks combined with electro acoustical back grounds.

What you first think of together with Susanna Lindeborg is her virtuoso play on the piano mixed with electronic instruments, which has been known most of all through the group Mwendo Dawa. Susanna has been successfully touring internationally in Europe, North and South America and China performing successfully at festivals like Montreux, Northsea and Montreal. The last few years she has been regularly performing in USA and Canada with Mwendo Dawa, Natural Artefacts and LJDuo. She also performs in Europe as piano soloist and writes music for the different groups.

Lindeborg is purposeful in her music. Each piece has its own character which she develops further. It is enjoyable
OrkesterJournalen

Susanna Lindeborg showed not to be only a superb instrumentalist but she also shows to be a magnificent talent of composing.
Jazz Podium, Germany

She is without question unique on the scene of Swedish improvised music, well worth listening to.
Skånska Dagbladet

It is great that she - a lone woman - can create just that supplement of sounds and harmonics which she thinks the (very beautifully recorded) good old sounds of grand piano shall be accompanied by. It is lovely to receive noble analogue nice sounds together with the machines keeping other colourings in the background, or the opposite.

Anders Kirkegaard, JazzSpecial Denmark

Susanna Lindeborg is a refreshingly original voice that easily holds the listener's attention for a full-length solo album: not an easy feat.
Steven Loewy, Cadence, USA
